

# Regents Authorize New Sooner Links

(Oklahoman-Times Norman Bureau)

NORMAN, July 13—The University of Oklahoma board of regents authorized Dr. George L. Cross, OU president, to start plans for an 18-hole golf course. The course will be built on the south campus.

Perry Maxwell, prominent golf course architect, has been negotiating with the university on the plans. No definite arrangements have yet been made, Dr. Cross said.

The old university golf course was abandoned when the new track was laid out over a portion of the course. The track is now nearing completion.

The regents also approved a \$375,800 budget for the athletic council Wednesday.
