

Country Club Layout

This schematic drawing by Craig Sheppard illustrates the layout for Lawton's new country club golf course, club house, tennis courts and shoot range. The 3500 yard, par 35 course, designed by Perry Maxwell, widely known golf course expert, is rated as one of the best potential 9-hole courses in the Southwest. Country club members predict that, if work progresses satisfactorily, members will be "swinging a few" by next autumn.
