

## **WORK ON GOLF COURSE IS PROGRESSING NICELY**

---

The work on the Neosho golf course is progressing nicely according to P. D. Maxwell of Ardmore, Okla., who has charge of laying out the course. Mr. Maxwell was in Neosho yesterday and inspected the course and made the above report. He said that he intended to fix temporary greens on holes 2, 5, and 6 and that these could be used for practice soon.

The members of the club are very enthusiastic about the new course and are all eagerly awaiting the time when they can get out and try their game.

The building committee of the club is working on a plan for a club house and something definite will be worked out soon.
