

Thirty Years Ago

June 2, 1924

P. D. Maxwell of Ardmore, who is directing work on the Neosho Golf Course, has been here shaping it up for the first year's play. He has built many courses, but he says he has never seen one with the beauty and natural hazards of the Neosho course. Par has been set at 35. Dealers report sale of bags and clubs almost every day and "Golf Bugs" will soon be a familiar sight on Neosho Streets.
