

WORK IS SCHEDULED TO START ON PROJECT

Architect For Municipal Golf Course Arrives.

City Manager C. W. Smedberg stated yesterday that work on the new municipal golf court is scheduled to get under way today by WPA workers. Percy Maxwell, of Tulsa, Okla., golf course architect, arrived in the city Saturday and is ready to begin work on the project, Mr. Smedberg said.

The new golf course will cost approximately \$38,000 and will be located in the vicinity of Gilespie Park school. The project received final approval of the WPA several weeks ago but at that time no workers were available for the project. WPA officials promised to furnish the labor effective today.
