

LADIES HEAR OF DR. TAGORE WHO WILL BE HERE THURSDAY NIGHT

When the Ladies of the Leaf met this afternoon, Mrs. Fred R. Ellis who had charge of the part of the program dealing with current events surrendered her time to Perry D. Maxwell for the purpose of talking to the club members about the Dr. Tagore lecture that will be given here Thursday night under the auspices of the Presbyterian Men's Dinner Club. Dr. Tagore usually receives \$1,000 for a lecture but on account of his friendship for Mr. Maxwell and for the further reason that he can make a stop here between the State University and a date which he has in Texas without the loss of time he has consented to come here for less than his regular lecture fee.

A number of Ardmore people have books in their library of which the lecturer is the author and these books are now being closely studied that something of the lecturer may be learned before the date of his lecture in this city.
