

GOVERNOR CRUCE PLAYS GOLF

SPENDS AFTERNOON ON LINKS
YESTERDAY AND TEACHES
LOCALS "FINE POINTS."

Governor Cruce spent the afternoon yesterday on the golf links of the local club and for a time was instructor for some of the novices who are beginning to learn the game. The governor takes delight in the game and was happy yesterday when instructing his old neighbors in the proper art of swatting the elusive gutta percha. Mr. Kerr of Oklahoma City, Perry Maxwell and Dr. Weith of this city accompanied him. While the governor is here there will be a meeting of the members and a permanent organization perfected. The grounds north of Lorena park are ideally located for a country club and before another year, the members hope to have a magnificent club house erected.

This morning the governor and a party of friends visited the oil fields.
