

MAXWELL WILL PUT IN SPAVINAW LINKS

Sporty Course To Be Built
For Mountain Club.

TULSA, Jan. 14.—(Special.)—Perry Maxwell of Oklahoma City, builder of the Dornick Hills golf links of Ardmore, and the Twin Hills links of Oklahoma City, will construct the golf course for the Spavinaw Mountain club on the south side of Spavinaw lake.

Maxwell, who has just completed a survey of the location, declared the ground well situated to provide a sporty course.

The work of building two miles of road from the main highway into the club grounds is to be started within two weeks. This road is the first improvement required, as it is necessary in order to get building materials to the site of the proposed club house.
