

THE  
**Stroller**

---

***Number One—***

So you are worried over getting to work every day?

A bid for the Ark-La-Tex's title of No. One Commuter has been proposed for PRES MAXWELL of Oklahoma City, who is helping his father, PERRY MAXWELL, construct the Palmetto Golf and Country club course between Bossier City and Benton.

PRES, who has worked for the past 15 years as superintendent for his father's projects, is currently working on a golf course at Oklahoma university at Norman.

However, on week ends, PRES commutes by private plane more than 400 miles to Shreveport to work on the course in Bossier parish.

PRES's total each week, over 800 miles.
